Discover your information management career with Shell

Do you want to develop an exciting career in information management? Are you able to translate business needs into specific IT solutions? And do you have good working knowledge of the Dutch language? Discover the Information Management & Technology opening on our IT Graduate Programme in the Netherlands! Explore your options to join the Shell IT Graduate Programme:

- as a student, intern or graduate with a University Master's Degree in e.g. Business Information Management, Computer Science or Computer Technology.
- as a young professional who graduated within the last three years. Commercial insight and knowledge of Information Management in combination with Business is a plus.

Why choose information management at Shell?

You would be joining one of the largest IT teams in the world. Supporting our business you could have the opportunity to collaborate with big names such as Microsoft, SAP and IBM for the technical implementation. As a Business Analyst, Project Manager, IT Architect, Data Manager and Application Delivery Analyst, you'll be delivering technology and support for groundbreaking and innovative IT solutions that stimulate business growth, streamline performance and increase efficiency.

What will you be doing?

You will be the link between Information Management/Technology...
and the business. Your internal customers will range from Finance to Engineering. Your role will be to gather information about the business requirements and translate what they need into usable, structural IT solutions that provide added value for Shell. For example, as a Business Analyst you’ll:

- Collaborate, at multiple levels, with the business and IT to define and manage the project scope
- Manage business stakeholder expectations together with Project Managers
- Be involved in planning business analysis activities, including task level of effort estimates
- Understand and apply IT, design and documentation standards
- Be inspired to reach your potential by working in our global and diverse culture

Why choose the Shell Graduate IT Programme

You’ll be joining an industry-leading development programme, with benefits including:

- Colleagues – you’ll be part of our open, dynamic and supportive working culture; a network of friendly professionals at the top their game that fully support each other and strives to excel
- Development – you’ll have the opportunity to progress globally and develop and diversify your role to meet your full potential. You’ll build your skills through hands-on roles, job tasks and world-class training and development
